

Three Giant Step- Canada

Toronto, Montreal and Calgary are the three major cities in Canada. Compare the climate in these different places

Look at the 2 websites below to learn all about the country and the climate

<https://www.natgeokids.com/uk/discover/geography/countries/facts-about-canada/>

<http://www.livingin-canada.com/canadian-climates.html>

<https://kids.kiddle.co/Toronto>

Research key physical and human features in one of the cities above and create a tourist information booklet about the place you have chosen.

Look closely at the proximity of Canada to the Arctic Circle on the map attached.
