Provision Map 2023/2024

We learn to love everyone as Jesus loves us

Provision mapping is a way of documenting the range of support available to pupils with SEND within a school.

Provision maps can be used as part of the planning process in a number of ways to:

- *audit how well provision matches need and recognise gaps in provision;*
- *cost provision accurately;*
- *highlight repetitive or ineffective use of resources;*
- *assess school effectiveness when linked with outcomes for pupils;*
- *plan development to meet pupils' identified needs;*
- *set annual success criteria for the SEND policy;*
- *report annually on the success of the SEND policy;*
- *demonstrate accountability;*
- *inform parents, LA, external agencies and OFSTED inspectors of how resources are being used to meet needs;*
- *focus attention on whole-school issues of teaching and learning rather than on individual child issues;*
- *record changes in provision and transfer easily from class to class or school to school;*
- *be used as a basis for writing Individual Support Plans*

Wave One:

The effective inclusion of all pupils in high-quality lessons (quality first teaching).

Wave Two:

Small-group intervention e.g. precision teaching, reading comprehension groups, Maths No problem groups, phonics groups, ELSA groups, No worries, EBSNA etc These are aimed at pupils who can be expected to 'catch up' with their peers as a result of the intervention. Wave 2 interventions are not primarily SEND interventions. However, some pupils receiving Wave 2 intervention *may* be on the SEND list as a result of difficulties for which they are receiving other forms of support.

Wave Three:

Individual specific targeted support for pupils identified as requiring SEN support e.g. 1:1 speech therapy support, individual learning programme. Pupils receiving Wave 3 support will be on the SEND register.
